## The Social World.

ONE THING AND ANOTHER WHICH SOCIETY PEOPLE LIKE TO TALK ABOUT.

F plans which have already been talked up in a quiet way come to any-thing, a social club, like the clubs in successful operation in other cities of Montana, will soon be or-ganized in Anaconda. The idea has been favorably received by all to whom it has been suggested, and it is certain that from the start the mem-bership can be made large enough to insure for the club a successful existence. In a general way the plan is to secure dieus rooms in the Montans, if satisfactory arrangements can be made to open a reading room well supplied with current literature, and to fit up pleasant quarters for those who want a lounging place. It is said that active measures looking toward the organization of the club will be started within a week.

It is expected that the Lowland club will soon be reorgan; sed, and to that end a committee will this week wait upon the gentlemen of Anaconda. For four winters the Lowland club gave parties, and all who attended them know that at these parties were spent the most pleasant evenings of the year. If, as is now thought, the first Lowland of the season be given the day after Thanksgiving, i is certain that numbers to make the oc-

casion enjoyable will not be lacking.

On Thursday of this week a large number of Anaconda people spent a very unpleasant ing on the bard seats in t the equipped, ill-ventilated and ill-cared-for Evans hall, waiting for the arrival of the troupe that was to present "Incog." n, at 11 o'clock, the play began, all faces assumed a pleased appearance, and on the way home nearly all agreed the enjoyment of the last two hours more than repaid them for the discomfort they

BUTTE'S SOCIAL LIFE.

An Evening of Music Which Ought to Have Attracted More People,

BUTTE, Nov. 7.-It is a downright pity that the members of the Philharmonic club did not receive a more generous reeption in Butte than was accorded them last Monday night. The city has its full share of people who enjoy and really ap-preciate music of the character and grade found in the Philharmonic programmes. People in town are always found to be willing patrons of opera of the better sort, and money is lavished on the Juch people, on the Bostonians and on other organisations whenever they come this way. The Philharmonics are more modest, perhaps, but the entertain ment they give is none the less delightful. factory to the lover of excellent music be they do not require the stage equipment and scenic accessories which are needed for successful opera, but which are simply out of the question in Butte It may be said without exaggeration that the concert of Monday night was the most finished and the most satisfactory musical entertainment ever given in Butte. The programme was of a high order, yet several of its numbers are familiar to many people who were in the audience. Mr. Weiner's rendering of the "Rhapsodie Hongroise" ask, Mr. Mahr's solos for the cello were fortunately selected and admirably rendered, and, of course, Mr. Marquand, the violinist, delighted the audience. The programme, including master works from Beethoven, Schubert, Rubenstein and other favorite composers, was fortunately chosen from first to last. The enjoy ment of the evening was heightened by the vocal solos rendered by Miss Weed, whose singing revealed a voice of fine ompass and quality, admirably schooled and remarkably sympathetic and pure.

Miss Weed adds to all the rest an impressive stage presence, and her selections elicited cordial applause. The unfortunate part of it is that so many lovers Tuis may be due to the fact that the Philbarmonies were not as well announced by the newspapers as they ought to have been. Then, too, the concert was given within the four cheerless walls of Benshaw hall which is ill-suited to enterments of the sort. The Philharmonics promise to visit Butte again next season, if arrangements can be made for their appearance in the opera house, and Mr. Maguire says that shall be done.

MISSOULA SOCIETY.

Doings in Garden City Focial Circles the Past Weck.

MISSOULA, Nov. 7 .- A few days ago a gentieman who takes quite an active part in social affairs said that he believes society will be rather quiet this season. Whether his prediction will be verified remains to be seen, but certain it is that not so much is doing in some lines this season as a year ago. The only club dances this year are those of the Social Dancing club every second Friday night, while last year the alternate Friday even-ings were devoted to the T. A. M. club's dances. Only one whist club is running this season, while there were three a ven ago. There appears to be fully as much private entertaining this year as last, and church social affairs are more numerous. Just at present the prospects are good for an enjoyable series of dances and dancing parties in the near future. Of course the Social club will continue to give its elegant balls every alternate Fri-Next Friday evening the base ball club will give a dance. On Thanksgiving eve the fire department will give its usual grand annual ball. On December 11 the newly organized Rocky Mountain Employes' Literary and Social club will give a dance. Invitations have been issued for the first dance of the season at Fort Missoula, on Tuesday, Nov. 17, complimentary to the new arrivals at the post, who include Mrs. Ritzus and the Misses Ritzious and Mrs. Ahern. Altogether society people will probably have all the dancing they de-

club occurred last night at the K. of P. terred a number from attending, as no so many were present as at the first party two weeks ago. The attendance, how ever, was fully up to the capacity of the hall, when comfort is considered. The music by Race's orchestra was good, and everybody apparently enjoyed the ceca-sion to the utmost. Among the visitors from other cities were Mrs. Henry Mc-Murphy and daughter, Miss Alice, of Deeer Lodge, who are the guests of the Evans and Lister families; Miss Robinson of Bonits, who is the guest of Mrs. J M. Keith; and D. W. Campbell of Portland Ore., who is spending a few days in the city visiting his many old friends. Among those present who have recently become valued additions to Missoula society were Mrs. Abern of Fort Missoula; Mrs H. H. Miller, who a few weeks ag here as a bride from California; Mrs. G A. The opening of the Gate City club rooms, which have been closed since the emise of the old club, will be a source of pleasure to a number of the men of the city. The old club gave a number o very pleasant social events during its existence. There is already a rumor that the new one will follow its example in this regard. Whether it does so or not, however, it will furnish a very pleasan rendezvous for a number of men in the place in which to meet their friends. The new club will be conducted on a plan which the members believe will make its financial success a certainty and it will be a most welcome addition to the insti-

tutions of Misscula. The members of the fire departmen propose to have a hunt in the near future They will divide into two parties and hunt all day and the party getting the least game will have to pay for a game supper. The supper will doubtless be a most enjoyable affair, for the boys have not had a spread in the past year which was not as pleasurable as could be
